

# DeJa Vu Linear Low

DeJa Vu can liners are manufactured from recycled resins and are our most environmentally responsible product.

We are proud of the fact that, for many years, we at Pitt Plastics have internally recycled all of the byproducts from our entire product line. These byproducts are 100% virgin resins that are left over as the inevitable result of the manufacturing process.

DeJa Vu can liners are formulated from a blend of own internally recycled virgin resin and the highest quality post-consumer resin. The result is an environmentally sound, versatile and 100% recyclable can liner at a competitive price.

- Contains up to 50% recycled content
- Heavyweight for super tough applications
- Opaque to hide unsightly trash
- Reasonably priced, environmentally responsible product
