

# General Purpose Disposable Gloves

**Now available from**

**INTEPLAST GROUP**  
Pitt Plastics

Inteplast/Pitt has gloves for a variety of applications. They can be used for foodservice, janitorial, healthcare, hospitality and schools. From vinyl to nitrile to latex, our gloves are sure to meet our customers' needs. Our vinyl gloves are an excellent choice for those who are looking for a latex free alternative. Our nitrile gloves are super strong and do an exceptional job creating a barrier of protection. Finally, our latex gloves offer superior comfort and fit while also providing another durable option that offers good barrier protection. Our vinyl and latex gloves also come in both powdered and powder-free options.

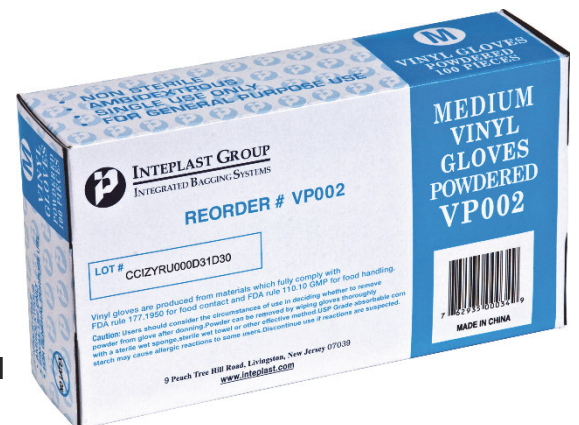

- Several popular sizes, substrates and types in powdered and powder-free options
- Made from materials which fully comply with the FDA for food contact and food handling
- The powdered gloves are made with cornstarch ingredient
- Gloves are free of DOP/DEHP
- **Non-Sterile**
- **Ambidextrous**
- **Single use only**
- **Available in sizes S-XL**

## Available in:

- Available in cases of 10 boxes
- 100 gloves per box
- Available by the pallet layer only (12 cases per layer)

- Reorder, UPC, Lot Number and other information printed on bottom of box

| Vinyl                                                                            | Color   | Description                                                                                | Applications                                                                            | Benefits                                             |
