

Mighty Tough Linear Low

White can liners are our most popular item. Mighty Tough can liners combine the economy of LLDPE resin with the strength of a star seal. The result is an economical bag suitable for a wide range of use.

Mighty Tough can liners are manufactured from the highest quality virgin resins and are extruded into a white film for a clean, sanitary appearance. Manufactured to Pitt Plastics high quality standards, these liners are USDA and FDA approved for food storage.

Mighty Tough can liners are available in two strengths and the six most common sizes. They, like the rest of the Pitt Plastics product line, are 100% recyclable.

- 100% LLDPE
- Excellent overall film strength
- White film for clean sanitary appearance
- Maximum film strength
- Virtually leak-proof star seal
- Full range of sizes and strengths
- Packed for easy stacking and storage
